Start of Block: Consent

Q4 Task Information
You are about to participate in an experiment on the economics of decision-making.

We estimate that this will take **35 minutes** on average. But you can take more than that, or less. The time you take depends exclusively on how much effort you want to put into making good decisions.

You will get **${e://Field/show_up_fee_text}** just by completing the task. You may earn additional bonus payments depending on your choices.

Note that £1 is equivalent to approximately $1.20 (although exchange rates may vary).
Quitting the Task
You can quit the task at any moment, but if you do not complete it you will not receive any payment.

Page Break

Q757 Subject information and informed consent form **Who is responsible for the study?** Responsible for the execution of the study and therefore for the processing of your data:
Suanna Oh
Paris School of Economics
48 Bd Jourdan, 75014 Paris
France

What are the purposes of the study? The purpose of this study is to improve our understanding of human behavior in economic contexts. We are interested in natural, unbiased behavior. Hence, no details on the background of this research project is given beforehand, which is in accordance with the standard in experimental economics. All necessary information will be provided in due time. **What happens to my data?** All participating employees and scientists work in accordance with the provisions of the Data Protection Regulation, the Federal Data Protection Act and the relevant State Data Protection Acts. For this project, we cooperate with research institutions, universities, institutes or laboratories in the EU. They are also obliged to comply with the relevant data protection regulations. Immediately after the collection, your data will be stored anonymized and then statistically analysed. No conclusions about your person can be drawn from these results. Your data will be stored by a technical service provider outside the EU. We have taken all necessary precautions and concluded all contracts which are necessary in order to comply with data protection. Even if the service provider is not located in the EU, your data is secure as we have concluded contracts with the service provider designated for this purpose in the EU. For this study, we collect "special categories of personal data", in particularly data revealing migration background (racial or ethnic origin - term according to Art. 9 GDPR), political opinions, religious or philosophical beliefs, which we use only for research purposes and solely with your consent.

Q10 Which gender do you identify as?

- ○ Male (1)
- ○ Female (2)
- ○ Specify myself (3) _____
- ○ Prefer not to say (4)

Q11 What is your current marital status?

- ○ Married (1)
- ○ Living with a partner (2)
- ○ Widowed (3)
- ○ Divorced/Separated (4)
- ○ Never been married (5)

Q12 How would you describe your ethnicity/race?

- ○ European American/White (1)
- ○ African American/Black (2)
- ○ Hispanic/Latinx (3)
- ○ Asian/Asian-American (4)
- ○ Other (specify) (5) _____

Q13 Which category best describes your highest level of education?

- ○ Eighth Grade or less (1)
- ○ Some high school (2)
- ○ High school degree / GED (3)
- ○ Some College (4)
- ○ 2-year college degree (5)
- ○ 4-year college degree (6)
- ○ Master's degree (7)
- ○ Doctoral degree (8)
- ○ Professional degree (JD, MD, MBA) (9)

Q14 Which category best describes your **mother's** highest level of education?

- ○ Eighth Grade or less (1)
- ○ Some high school (2)
- ○ High school degree / GED (3)
- ○ Some College (4)
- ○ 2-year college degree (5)
- ○ 4-year college degree (6)
- ○ Master's degree (7)
- ○ Doctoral degree (8)
- ○ Professional degree (JD, MD, MBA) (9)

Q15 Which category best describes your **father's** highest level of education?

- ○ Eighth Grade or less (1)
- ○ Some high school (2)
- ○ High school degree / GED (3)
- ○ Some College (4)
- ○ 2-year college degree (5)
- ○ 4-year college degree (6)
- ○ Master's degree (7)
- ○ Doctoral degree (8)
- ○ Professional degree (JD, MD, MBA) (9)

Q16 What best describes your employment status over the last three months?

- ○ Working full-time (1)
- ○ Working part-time (2)
- ○ Unemployed and looking for work (3)
- ○ A homemaker or stay-at-home parent (4)
- ○ Student (5)
- ○ Retired (6)
- ○ Other (7) _____

Q17 We are interested in what sections people like to read in the newspaper. This might affect what they learn from articles and how they feel about the issues discussed in them. We also want to see if people are reading the questions carefully. To show that you've read this much, please ignore the question below and mark both the Classified and None of the above boxes below. That's right, just select these two options only.

Regardless of how frequently you read the newspaper, what would you say are your favorite newspaper sections to read?

- ☐ National (1)
- ☐ Classified (2)
- ☐ Local (3)
- ☐ Style (4)
- ☐ Opinion (5)
- ☐ Science and Technology (6)
- ☐ Business (7)
- ☐ Sports (8)
- ☐ Opinion (9)
- ☐ Real Estate (10)
- ☐ Comics (11)
- ☐ None of the above (12)
- ☐ All of the above (13)

Q18 Where were you born?

- ○ United States (1)
- ○ South or Central America, or Mexico (2)
- ○ Canada (3)
- ○ Europe (4)
- ○ Asia (5)
- ○ Africa (6)
- ○ Oceania (7)
- ○ Prefer not to say (8)

Q19 Which state do you currently live in?

▼ Alabama (1) ... Wyoming (52)

Q20 Which of these places have you lived for more than 3 months?

- ☐ Unites States (3)
- ☐ South or Central America, or Mexico (4)
- ☐ Canada (5)
- ☐ Europe (6)
- ☐ Asia (7)
- ☐ Africa (8)
- ☐ Oceania (9)

Q21 How many people live in your household (or stay in the household at least half the time), **including yourself**?

_____

Q22 How many children under 18 live with you?

_____

Q23 Please indicate your current **household income** in U.S. dollars.

- ○ Under $10,000 (1)
- ○ $10,000-$19,999 (4)
- ○ $20,000-$29,999 (5)
- ○ $30,000-$39,999 (6)
- ○ $40,000-$49,999 (7)
- ○ $50,000-$74,999 (8)
- ○ $75,000-$99,999 (9)
- ○ $100,000-149,999 (10)
- ○ Over $150,000 (11)
- ○ Prefer not to say (12)

Q24 Which of these best describes your religious beliefs?

- ○ Protestant (1)
- ○ Roman Catholic (2)
- ○ Mormon (3)
- ○ Orthodox (Greek) (4)
- ○ Orthodox (Russian) (5)
- ○ Jewish (6)
- ○ Muslim (7)
- ○ Buddhist (8)
- ○ Hindu (9)
- ○ Atheist (10)
- ○ Agnostic (11)
- ○ Other (12) _____
- ○ Prefer not to say (13)

Q25 Which of the following appliances or equipment do you have in your home? *Please select all that apply.*

- ☐ Cooking stove, range, or oven (1)
- ☐ Range hood (20)
- ☐ Microwave oven (21)
- ☐ Refrigerator or home freezer (22)
- ☐ Built-in dishwasher (23)
- ☐ Portable dishwasher (24)
- ☐ Garbage disposal (25)
- ☐ Clothes washer or dryer (26)
- ☐ Smoke alarms and detectors (27)
- ☐ Window air conditioner (28)
- ☐ Ceiling fans (29)
- ☐ Sewing Machine (30)
- ☐ Vacuum Cleaner (31)
- ☐ Lawn mower (32)
- ☐ Desktop computer (33)

- [ ] Video game hardware or accessories (34)
- [x] None of the above (35)

Q26 Which modes of transportation (for either leisure or commuting) did you, or someone in your household, use in the last 6 months? *Please select all that apply*

- ☐ Bicycle (1)
- ☐ Motorcycle (4)
- ☐ Train (5)
- ☐ Subway (6)
- ☐ Private airplane/aircraft (7)
- ☐ Commercial airplane/aircraft (8)
- ☐ Walking (more than 30 minutes) (9)
- ☐ Personal/household automobile (10)
- ☐ Friend/coworker's automobile, carpooling (11)
- ☐ Automobile (rented) (12)
- ☐ Taxi (13)
- ☐ Boat/Ferry (14)
- ☐ Other transportation (15)
- ☐ ⊗ None of the above (16)

Q27 Have you or any members of your household purchased any of the following in the last 12 months? *Please select all that apply.*

- ☐ Sofas (1)
- ☐ Living room chairs (4)
- ☐ Living room tables (5)
- ☐ Ping-pong, pool tables or other similar recreation room items (6)
- ☐ Other living room, family, or recreation room furniture including desks, wall units, and shelving (7)
- ☐ Living room furniture combinations (8)
- ☐ Dining room or kitchen furniture (9)
- ☐ Mattresses or box springs (10)
- ☐ Bedroom furniture other than mattresses or box springs (11)
- ☐ Infants furniture (12)
- ☐ Patio, porch, or outdoor furniture (13)
- ☐ Barbeque grills or outdoor decorative items (14)
- ☐ Office furniture for home use (15)
- ☐ Lamps, lighting fixtures, or ceiling fans (16)
- ☐ Other household decorative (17)

☐

⊗ None of the above (18)

Q28 Have you or any members of your household purchased any of the following in the last 12 months? *Please select all that apply.*

- ☐ Golf courses or country clubs (1)
- ☐ Health clubs, fitness centers, swimming pools, weight loss centers, or other sports or recreational organizations (4)
- ☐ Fees for participating in sports such as golf, bowling, biking, hockey, football, or swimming (5)
- ☐ Bike-sharing (6)
- ☐ Vacation clubs (7)
- ☐ Civic, service, fraternal, or other social organizations (8)
- ☐ Credit card membership fees (9)
- ☐ Shopping club memberships including warehouse clubs like Sam's Club and discount memberships like Amazon Prime (10)
- ☐ Direct or online dating services (11)
- ☐ Single or season tickets to spectator sports events such as football, baseball, hockey racing, or track events (12)
- ☐ Single or season tickets to plays, operas, or concerts (13)
- ☐ Movie tickets (14)
- ☐ Tickets to parks or museums (15)
- ☐ Single copies of newspapers, magazines, or periodicals, including digital (16)

- [ ] Subscriptions to newspapers, magazines, or periodicals, including digital (17)
- [ ] Books, digital books, or book subscriptions. Do not include school books or reference books. (18)
- [ ] Photo printing or processing (19)
- [ ] Photographic film or disposable cameras (20)
- [ ] Purchased music files, CDs, or records (21)
- [ ] Sirius or XM satellite radio service (22)
- [ ] Subscription music services such as Spotify or Pandora (23)
- [ ] Purchased video files, Blu-Ray discs, or DVDs (24)
- [ ] Rented video files or DVDs or streaming video subscription (25)
- [ ] ⊗ None of the above (26)

Q29 Many government websites are set up to provide information and services. In the past 12 months, have you done any of the following online with your local, state or federal government?

	Yes, I have done this (1)	No , I have not done this (2)	I don't know (3)
Renewed a driver's license, or auto registration (1)	○	○	○
Applied for a fishing, hunting or other recreational license (4)	○	○	○
Paid a fine, such as a parking ticket (5)	○	○	○
Looked for information about a public policy or issue of interest to you (6)	○	○	○
Downloaded government forms (7)	○	○	○
Looked up what services a government agency provides (8)	○	○	○
Gotten advice or information from a government agency about a health or safety issue (9)	○	○	○
Gotten recreational or tourist information from a government agency (10)	○	○	○
Researched official government documents or statistics (11)	○	○	○

Gotten information about or applied for government benefits (12)	○	○	○
Gotten information about how to apply for a government job (13)	○	○	○

Q30 How much of the time do you think you can trust the information coming from each of the following organizations or groups?

	Just about always (1)	Most of the time (2)	Only some of the time (3)	Never (4)	Prefer not to say (5)
The federal government (1)	○	○	○	○	○
Your state government (4)	○	○	○	○	○
Your local government (5)	○	○	○	○	○
Large corporations (6)	○	○	○	○	○
News organizations (7)	○	○	○	○	○
Public school teachers for grades K-12 (8)	○	○	○	○	○
The President of the U.S. (9)	○	○	○	○	○
The Mayor of your town (10)	○	○	○	○	○

Q31 As you may know, some government agencies and officials now allow people to get information and submit feedback using new tools such as blogs, social networking sites like Facebook, services like Twitter, or text messaging. Please tell us whether you agree or disagree with each of the following statements. *Having a way to follow and communicate online with the government using these tools...*

	Strongly agree (1)	Somewhat agree (2)	Somewhat disagree (3)	Strongly disagree (4)	Prefer not to say (5)
…makes government agencies and officials more accessible (1)	○	○	○	○	○
…helps people be more informed about what the government is doing (4)	○	○	○	○	○
…is a waste of government money (5)	○	○	○	○	○
…just delivers the same government information in different ways (6)	○	○	○	○	○

Q32 How often do you get news from the following sources?

	Never (1)	Rarely (2)	Sometimes (3)	Often (4)	Prefer not to say (5)
A voice-controlled smart speaker, such as an Alexa or a Google Home (1)	○	○	○	○	○
A smartwatch, such as an Apple Watch or Fitbit Versa (4)	○	○	○	○	○
A streaming device such as a Roku, Chromecast, or Fire Stick (5)	○	○	○	○	○
Internet streaming services such as Netflix or Hulu (6)	○	○	○	○	○
Push notifications or alerts on a mobile device (7)	○	○	○	○	○

Q33 Do you believe that each of the following does its own news reporting?

	Yes, does its own reporting (1)	No, does not do its own reporting (2)	Not sure (3)
Google News (1)	○	○	○
Facebook (4)	○	○	○
ABC News (5)	○	○	○
HuffPost (6)	○	○	○
The Wall Street Journal (7)	○	○	○
Apple News (8)	○	○	○

Q34 In the past **7 days**, did you get news from the website or app of any of these news organizations? *Please select all that apply.*

- ☐ Vox (1)
- ☐ CNN (4)
- ☐ Fox News (5)
- ☐ ABC News (6)
- ☐ Breitbart (7)
- ☐ The Guardian (8)
- ☐ USA Today (9)
- ☐ The Hill (10)
- ☐ The New York Times (11)
- ☐ Time (12)
- ☐ Univision (13)
- ☐ HuffPost (14)
- ☐ Business Insider (15)
- ☐ The Wall Street Journal 14 New York Post (16)
- ☐ BBC (17)

☐ ⊗ None of the above (3)

Q35 How much confidence, if any, do you have in each of the following to act in the best interests of the public?

	Great deal of confidence (1)	Fair amount of confidence (2)	Not too much confidence (3)	No confidence at all (4)	Prefer not to say (5)
Elected officials (1)	○	○	○	○	○
Journalists (4)	○	○	○	○	○
The military (5)	○	○	○	○	○
Religious leaders (6)	○	○	○	○	○
Business leaders (7)	○	○	○	○	○
Medical scientists (8)	○	○	○	○	○
Scientists, generally (9)	○	○	○	○	○
Public school principals for grades k-12 (10)	○	○	○	○	○
Police officers (11)	○	○	○	○	○

Q36 Which of the following describes your living status?

- ○ Homeowner (1)
- ○ Renter (2)
- ○ Lessee (3)
- ○ Other (4) _____
- ○ Prefer not to say (5)

Q37 Are you registered to vote in your home state?

- ○ Yes (1)
- ○ No (2)
- ○ Not sure (4)
- ○ Prefer not to say (3)

Q38 Which languages are you capable of speaking fluently? *Select all that apply.*

- [ ] Arabic (1)
- [ ] English (4)
- [ ] French (5)
- [ ] German (6)
- [ ] Italian (7)
- [ ] Japanese (8)

JS

Q116 Section 2
This section contains 24 questions. For these questions, you may receive additional payments based on the following procedure:

At the end of the experiment, we will randomly choose **three questions** from this section and ask you to tell us the **same answers you gave previously**. You will earn an extra £1 for each of the same answers you provide, so that your additional payment can be up to £3. The questions in this section ask for your personal opinion or involve solving simple problems. Your opinions are unlikely to change over the course of the survey, and you can always get the same answer on a problem by correctly solving it again. Therefore, by simply **answering the questions in this section carefully,** it should be easy for you to **give the same answers you gave previously**, which will **earn you more money.** To encourage you to make an active choice on each question, the answer options on the randomly selected questions may be worded slightly differently and their order may be shuffled.
We use this procedure because we would like you to pay attention and put effort into answering the questions in this section.

End of Block: Section 2 instructions [RM-UV and RM-V]

Q773 That's **incorrect**.

End of Block: Recall comprehension check - POINTS

Start of Block: Recall comprehension check - review (POINTS)

Q777 You got at least one of the questions wrong. Please review the instructions again:
At the end of the experiment, we will randomly choose **three questions** from this section and ask you to tell us the **same answers you gave previously**. You will earn an extra **1 point** for each of the same answers you provide, so that you can earn up to **3 points**. These points have **no monetary value**, but indicate high-quality responses. The questions in this section ask for your personal opinion or involve solving simple problems. Your opinions are unlikely to change over the course of the survey, and you can always get the same answer on a problem by correctly solving it again. Therefore, by simply **answering the questions in this section carefully**, it should be easy for you to **give the same answers you gave previously**, which will **earn you more points**. To encourage you to make an active choice on each question, the answer options on the randomly selected questions may be worded slightly differently and their order may be shuffled.

End of Block: Recall comprehension check - review (POINTS)

Start of Block: Recall comprehension check 2 - POINTS

Q778 Now that you've reviewed the instructions, please answer the following question(s) again.

Q160 A bat and a ball cost $1.10 in total. The bat costs $1.00 more than the ball. How much does the ball cost?

Enter a number with no dollar sign.

_____

JS *

Q161 If it takes 5 machines 5 minutes to make 5 widgets, how long would it take 100 machines to make 100 widgets?

_____

Q162 There are two jars: a red jar and a blue jar.

The red jar contains 2 red balls and 1 blue ball. The blue jar contains 2 blue balls and 1 red ball.

Suppose a jar was chosen by flipping a fair coin: ‘heads’ corresponds to the red jar, and ‘tails’ corresponds to the blue jar. You do not observe the outcome of the coin flip, so without any additional evidence, your best guess is that there is a 50% probability that the red jar was chosen.

You reach your hand into the chosen jar, not knowing which jar it is.

You have **pulled out 1 blue ball**.

What is the probability that the red jar was chosen?

If you're not sure, just provide your best guess.

- ○ 1-18% (1)
- ○ 18-34% (2)
- ○ 34-49% (3)
- ○ 49-64% (4)
- ○ 64-80% (5)
- ○ 80-99% (6)

Q163 There are two jars: a green jar and a purple jar.

The green jar contains 2 green balls and 1 purple ball. The purple jar contains 2 purple balls and 1 green ball.

Suppose a jar was chosen by flipping a fair coin: ‘heads’ corresponds to the green jar, and ‘tails’

corresponds to the purple jar. You do not observe the outcome of the coin flip, so without any additional evidence, your best guess is that there is a 50% probability that the green jar was chosen.

You reach your hand into the chosen jar, not knowing which jar it is.

The **first ball is green**.

The first ball is placed back in the jar. You then take another ball at random from the same jar.

The **second ball is also green**.

What is the probability that the green jar was chosen?

If you're not sure, just provide your best guess.

- ○ 1-19% (1)
- ○ 19-35% (2)
- ○ 35-51% (3)
- ○ 51-67% (4)
- ○ 67-83% (5)
- ○ 83-99% (6)

Q164 How many dots are in this picture?

Q166 The price of a pair of sneakers was $95 for the last six months of last year. On January 1st, there was a sale and the price decreased by 50%. 2 weeks later, the price increased by $5 and then Nina bought the sneakers at the new price. How much did Nina pay?

_____

Q167 Dharik lives in a house on a straight street. For years, there have been 16 houses on his street to the right of his house and 17 houses on his street to the left of his house. Last year, 5 new houses were built on the same street even further to the left of those houses to the left of Dharik's house. If these are the only houses on this street, how many houses are on this street, including Dharik's house?

_____

Q168 Please read the following passage carefully, and then answer the question at the bottom.
Mrs Smith is going shopping with her son Tom. They are looking for a present for Mr Smith's birthday. Mrs Smith wants to buy him a new camera and Tom wants to buy him a jumper. They drive to the department store on the high street. Mrs Smith uses the escalator to go to the Electrical Department on the third floor and Tom takes the stairs up to the Men's Clothing Department on the second floor. When she gets to the Electrical Department she finds that cameras are sold in the Photography Department on the first floor. She takes the elevator down and asks the sales assistant there for some help. She doesn't know much about cameras and needs some advice. He recommends an automatic camera by Olympus, but it is too expensive. She asks him if he has anything a little cheaper and he tells her about a special offer on the Pentax range. It still seems expensive so she thanks the assistant and decides to shop around first. Meanwhile, Tom is looking at the jumpers. He only has £10 to spend so he can't afford most of them. He sees his mother and they decide to go to the smaller shops round the corner.
Where did Mrs Smith find cameras being sold?

- ○ Basement (9)
- ○ First floor (4)
- ○ Second floor (5)
- ○ Third floor (6)
- ○ Fourth floor (7)
- ○ None of the above (8)

Q169 Please read the following passage carefully, and then answer the question at the bottom.
It's Saturday morning and something is happening next door. **Joan**: Steve, what's all that noise outside? **Steve**: Just a minute, I'll have a look. ..... Oh! It looks as if the new next door neighbors are moving in. **Joan**: Oh, it's a bit early, isn't it? Ah well I guess we'd better get up. **Steve**: It's amazing how quickly the houses are selling around here, the Browns only put it on the market a month ago. **Joan**: Where did they move to? **Steve**: I remember hearing they were buying a detached house in Surbiton. **Joan**: Sounds nice. I hope the new neighbors are nice. **Steve**: Well, I was speaking with Mr Brown last week. He told me they were a young couple with two daughters. They liked the house because it was near a good school. **Joan**: Two daughters! That will please John. **Steve**: Ha! Maybe we'd better pop next door and say hello. **Joan**: Yes, and maybe we'd better start thinking of selling too. I'd like a detached house in Surbiton as well! Who is buying a detached house in Surbiton?

- ○ The new neighbors (11)
- ○ Joan (12)
- ○ Steve (13)
- ○ The Browns (14)
- ○ John (15)
- ○ The text doesn't say (16)

Q213 There are two jars: a green jar and a purple jar.

The green jar contains 2 green balls and 1 purple ball. The purple jar contains 2 purple balls and 1 green ball.

Suppose a jar was chosen by flipping a fair coin: 'heads' corresponds to the green jar, and 'tails'

corresponds to the purple jar. You do not observe the outcome of the coin flip, so without any additional evidence, your best guess is that there is a 50% probability that the green jar was chosen.

You reach your hand into the chosen jar, not knowing which jar it is.

The **first ball is green**.

The first ball is placed back in the jar. You then take another ball at random from the same jar.

The **second ball is also green**.

What is the probability that the green jar was chosen?

If you're not sure, just provide your best guess.

- ○ 1-19% (1)
- ○ 19-35% (2)
- ○ 35-51% (3)
- ○ 51-67% (4)
- ○ 67-83% (5)
- ○ 83-99% (6)

Q214 How many dots are in this picture?

- ○ 28 (9)
- ○ 29 (11)
- ○ 30 (12)
- ○ 31 (13)
- ○ 32 (14)
- ○ 33 (15)
- ○ 34 (16)

Q215 How many dots are in this picture?

- ○ 27 (9)
- ○ 28 (11)
- ○ 29 (12)
- ○ 30 (13)
- ○ 31 (14)

Q216 The price of a pair of sneakers was $95 for the last six months of last year. On January 1st, there was a sale and the price decreased by 50%. 2 weeks later, the price increased by $5 and then Nina bought the sneakers at the new price. How much did Nina pay?

_____

Q217 Dharik lives in a house on a straight street. For years, there have been 16 houses on his street to the right of his house and 17 houses on his street to the left of his house. Last year, 5 new houses were built on the same street even further to the left of those houses to the left of Dharik's house. If these are the only houses on this street, how many houses are on this street, including Dharik's house?

_____

Q218 Please read the following passage carefully, and then answer the question at the bottom. Mrs Smith is going shopping with her son Tom. They are looking for a present for Mr Smith's birthday. Mrs Smith wants to buy him a new camera and Tom wants to buy him a jumper. They drive to the department store on the high street. Mrs Smith uses the escalator to go to the Electrical Department on the third floor and Tom takes the stairs up to the Men's Clothing Department on the second floor. When she gets to the Electrical Department she finds that cameras are sold in the Photography Department on the first floor. She takes the elevator down and asks the sales assistant there for some help. She doesn't know much about cameras and needs some advice. He recommends an automatic camera by Olympus, but it is too expensive. She asks him if he has anything a little cheaper and he tells her about a special offer on the Pentax range. It still seems expensive so she thanks the assistant and decides to shop around first. Meanwhile, Tom is looking at the jumpers. He only has £10 to spend so he can't afford most of them. He sees his mother and they decide to go to the smaller shops round the corner. Where did Mrs Smith find cameras being sold?

- ○ Basement (9)
- ○ First floor (4)
- ○ Second floor (5)
- ○ Third floor (6)
- ○ Fourth floor (7)
- ○ None of the above (8)

Q219 Please read the following passage carefully, and then answer the question at the bottom. It's Saturday morning and something is happening next door. **Joan**: Steve, what's all that noise outside? **Steve**: Just a minute, I'll have a look. ..... Oh! It looks as if the new next door neighbors are moving in. **Joan**: Oh, it's a bit early, isn't it? Ah well I guess we'd better get up. **Steve**: It's amazing how quickly the houses are selling around here, the Browns only put it on the market a month ago. **Joan**: Where did they move to? **Steve**: I remember hearing they were buying a detached house in Surbiton. **Joan**: Sounds nice. I hope the new neighbors are nice. **Steve**: Well, I was speaking with Mr Brown last week. He told me they were a young couple with two daughters. They liked the house because it was near a good school. **Joan**: Two daughters! That will please John. **Steve**: Ha! Maybe we'd better pop next door and say hello. **Joan**: Yes, and maybe we'd better start thinking of selling too. I'd like a detached house in Surbiton as well! Who is buying a detached house in Surbiton?

- ○ The new neighbors (1)
- ○ Joan (11)
- ○ Steve (12)
- ○ The Browns (13)
- ○ John (14)
- ○ The text doesn't say (15)

Q246 Based on the number of people who live there, which of the following U.S. cities is the largest?

- Phoenix, AZ (1)
- Philadelphia, PA (2)
- San Antonio, TX (3)
- San Diego, CA (4)
- Dallas, TX (5)
- San Jose, CA (6)

Q247 Suppose there were 140 million people in the workforce last year. 10% of the workforce was in the sales sector and 5% was in the professional sector. This year, the total workforce size decreased by 20 million people. The proportion of the workforce in the sales sector is unchanged, but the proportion of the workforce in the professional sector has doubled. Approximately how many people are the sales and professional sector combined this year?

- 17 million (1)
- 24 million (2)
- 31 million (3)
- 38 million (4)
- 45 million (5)

Q248 Which figure logically belongs in the bottom right square?

- ○ Image:raven_3_1.png (1)
- ○ Image:raven_3_3.png (2)
- ○ Image:raven_3_5.png (3)
- ○ Image:raven_3_7.png (4)

Q249 Below are 6 lottery tickets: J, K, L, M, N, and O. Each row represents the payments for each ticket.

	50%	30%	20%		50%	30%	20%		50%	30%	20%
Lottery J	£4	£7	£5	**Lottery K**	£7	£4	£6	**Lottery L**	£6	£4	£7
Lottery M	£5	£8	£4	**Lottery N**	£4	£6	£8	**Lottery O**	£8	£6	£4

Which lottery would you most prefer?

- Lottery J (4)
- Lottery K (5)
- Lottery L (6)
- Lottery M (7)
- Lottery N (8)
- Lottery O (9)

Q250 Which of the following cities in the United States is the largest by population?

- Phoenix, AZ (1)
- Philadelphia, PA (2)
- San Antonio, TX (3)
- San Diego, CA (4)
- Dallas, TX (5)
- San Jose, CA (6)

Q317 People are very busy these days and many do not have time to follow what goes on in the government. Some do pay attention to politics but do not read questions carefully. To show that you've read this much, please ignore the question below and select both "Extremely Interested" and "Slightly Interested".

How interested are you in information about what's going on in government and politics?

- ☐ Extremely interested (1)
- ☐ Very interested (2)
- ☐ Moderately interested (3)
- ☐ Slightly interested (4)
- ☐ Not interested at all (5)

Q318 What do you think is the purpose of this study?

_____

Q320 You are currently working on Section 3. Please evaluate how quickly/carefully you responded to the 24 questions of **Section 2 (the previous section)**. *Use a scale from 0 to 5, where 0 indicates that you answered the questions as quickly as possible, and 5 indicates that you answered the questions as carefully as possible*.

- ○ I answered the questions as **quickly** as possible0 (1)
- ○ 1 (2)
- ○ 2 (3)
- ○ 3 (4)
- ○ 4 (5)
- ○ I answered the questions as **carefully** as possible5 (6)

Q321 You are currently working on Section 3. This question concerns the 24 questions of **Section 2 (the previous section)**. How much do you agree with the following statement: *In Section 2, I put effort into answering the questions mainly to help the researchers.*

- ○ Strongly disagree0 (1)
- ○ 1 (2)
- ○ 2 (3)
- ○ 3 (4)
- ○ 4 (5)
- ○ Strongly agree5 (6)

Q319 Please rate how you feel about the total payment you will receive?

- ○ Not satisfied with the payment0 (1)
- ○ 1 (2)
- ○ 2 (3)
- ○ 3 (4)
- ○ 4 (5)
- ○ Very thankful for the payment5 (6)

- ○ New York (3)
- ○ New Jersey (4)
- ○ Washington (5)
- ○ New Mexico (6)
- ○ Louisiana (7)

Q262
Please restate the answer you gave previously to the following question:

What proportion of total income in the U.S. is earned by the 20% of people who **earn the most** (before tax and redistribution)?

- 0-1% (1)
- 1-19% (14)
- 19-36% (15)
- 36-52% (16)
- 52-68% (17)
- 68-84% (18)
- 84-99% (19)
- 99-100% (20)

Q263

Please restate the answer you gave previously to the following question:

What proportion of total income in the U.S. is earned by the 80% of people who **earn the least** (before tax and redistribution)?

- 0-1% (1)
- 1-16% (28)
- 16-32% (29)
- 32-48% (30)
- 48-64% (31)
- 64-81% (32)
- 81-99% (33)
- 99-100% (34)

Q264 *Please restate the answer you gave previously to the following question:* As of 2018, which country's government spends the most on education (primary, secondary and post-secondary non-tertiary) as a percentage of GDP (gross domestic product)?

- ○ Norway (1)
- ○ New Zealand (2)
- ○ France (3)
- ○ Canada (4)
- ○ Japan (5)
- ○ Russia (6)
- ○ Germany (7)

Q265 *Please restate the answer you gave previously to the following question:* Which of the following countries had the largest government expenditure on education (primary, secondary and post-secondary non-tertiary) as a fraction of gross domestic product (GDP) in 2018?

- ○ Norway (1)
- ○ New Zealand (2)
- ○ France (3)
- ○ Canada (4)
- ○ Japan (5)
- ○ Russia (6)
- ○ Germany (7)

Q266 *Please restate the answer you gave previously to the following question:* A lottery ticket pays an amount of money that depends on chance. For example, lottery ticket X below pays £3 with probability 45%, £1 with probability 35%, and £6 with probability 20%.

	45%	35%	20%
Lottery X	£3	£1	£6

Below are 6 lottery tickets: A, B, C, D, E, and F. Each row represents the payments for each ticket.

	45%	**35%**	**20%**
Lottery A	£1	£7	£4
Lottery B	£8	£4	£1
Lottery C	£4	£1	£7
Lottery D	£3	£8	£1
Lottery E	£1	£4	£8
Lottery F	£7	£1	£4

Which lottery ${e://Field/CI_incentive_text_do_would} you most prefer?

- ○ Lottery A (4)
- ○ Lottery B (5)
- ○ Lottery C (6)
- ○ Lottery D (7)
- ○ Lottery E (8)
- ○ Lottery F (9)

Q267 *Please restate the answer you gave previously to the following question:* A lottery ticket pays an amount of money that depends on chance. For example, lottery ticket Y below pays £3 with probability 40%, £1 with probability 35%, and £6 with probability 25%.

	40%	**35%**	**25%**
Lottery Y	£3	£1	£6

Below are 6 lottery tickets: P, Q, R, S, T, and U. Each row represents the payments for each ticket.

Please choose your preferred lottery ticket:

	40%	**35%**	**25%**
Lottery P	£1	£5	£7
Lottery Q	£1	£6	£4
Lottery R	£3	£7	£1
Lottery S	£7	£5	£1
Lottery T	£5	£1	£6
Lottery U	£6	£1	£5

Which lottery ${e://Field/CI_incentive_text_do_would} you most prefer?

- ○ Lottery P (4)
- ○ Lottery Q (5)
- ○ Lottery R (6)
- ○ Lottery S (7)
- ○ Lottery T (8)
- ○ Lottery U (9)

Q268 *Please restate the answer you gave previously to the following question:* William worked as a swim teacher for young kids for 5 weeks. In the first week, he worked 11 hours. In the second week, he worked 12 hours, and another 12 hours in the third week. The fourth week, he worked 8 hours. The fifth week, he worked 9 hours. How many hours did he work per week, on average?

- ○ 10 hours (1)
- ○ 10.4 hours (19)
- ○ 10.8 hours (20)
- ○ 11.2 hours (21)
- ○ 11.6 hours (22)
- ○ 12 hours (23)

Q269 *Please restate the answer you gave previously to the following question:* For 5 weeks, Jennifer volunteered as a helper for swimming classes. The first week, she volunteered for 8 hours. She volunteered for 12 hours in the second week, and another 12 hours in the third week. The fourth week, she volunteered for 9 hours. The fifth week, she volunteered for 11 hours. For how many hours did she volunteer per week, on average?

- ○ 10 hours (1)
- ○ 10.4 hours (24)
- ○ 10.8 hours (25)
- ○ 11.2 hours (26)
- ○ 11.6 hours (27)
- ○ 12 hours (28)

Q291 *Please restate the answer you gave previously to the following question:* Which of these countries do you feel values education (primary, secondary and post-secondary non-tertiary) the most?

- ○ Norway (1)
- ○ New Zealand (2)
- ○ France (3)
- ○ Canada (4)
- ○ Japan (5)
- ○ Russia (6)
- ○ Germany (7)

Q292 *Please restate the answer you gave previously to the following question:* In terms of the value it places on education (primary, secondary and post-secondary non-tertiary), which of these countries do you feel ranks the highest?

- ○ Norway (1)
- ○ New Zealand (2)
- ○ France (3)
- ○ Canada (4)
- ○ Japan (5)
- ○ Russia (6)
- ○ Germany (7)

Q293 *Please restate the answer you gave previously to the following question:* A lottery ticket pays an amount of money that depends on chance. For example, lottery ticket X below pays £3 with probability 45%, £1 with probability 35%, and £6 with probability 20%.

	45%	35%	20%
Lottery X	£3	£1	£6

Below are 6 lottery tickets: A, B, C, D, E, and F. Each row represents the payments for each ticket.

	45%	**35%**	**20%**
Lottery A	£1	£7	£4
Lottery B	£8	£4	£1
Lottery C	£4	£1	£7
Lottery D	£3	£8	£1
Lottery E	£1	£4	£8
Lottery F	£7	£1	£4

Which lottery ${e://Field/CI_incentive_text_do_would} you most prefer?

- ○ Lottery A (4)
- ○ Lottery B (5)
- ○ Lottery C (6)
- ○ Lottery D (7)
- ○ Lottery E (8)
- ○ Lottery F (9)

Q294 *Please restate the answer you gave previously to the following question:* A lottery ticket pays an amount of money that depends on chance. For example, lottery ticket Y below pays £3 with probability 40%, £1 with probability 35%, and £6 with probability 25%.

	40%	35%	25%
Lottery Y	£3	£1	£6

Below are 6 lottery tickets: P, Q, R, S, T, and U. Each row represents the payments for each ticket.

	40%	35%	25%
Lottery P	£1	£5	£7
Lottery Q	£1	£6	£4
Lottery R	£3	£7	£1
Lottery S	£7	£5	£1
Lottery T	£5	£1	£6
Lottery U	£6	£1	£5

Which lottery ${e://Field/CI_incentive_text_do_would} you most prefer?

- ○ Lottery P (4)
- ○ Lottery Q (5)
- ○ Lottery R (6)
- ○ Lottery S (7)
- ○ Lottery T (8)
- ○ Lottery U (9)

Q295 *Please restate the answer you gave previously to the following question:* William worked as a swim teacher for young kids for 5 weeks. In the first week, he worked 11 hours. In the second week, he worked 12 hours, and another 12 hours in the third week. The fourth week, he worked 8 hours. The fifth week, he worked 9 hours. How many hours did he work per week, on average?

- ○ 10 hours (1)
- ○ 10.4 hours (19)
- ○ 10.8 hours (20)
- ○ 11.2 hours (21)
- ○ 11.6 hours (22)
- ○ 12 hours (23)

Q296 *Please restate the answer you gave previously to the following question:* For 5 weeks, Jennifer volunteered as a helper for swimming classes. The first week, she volunteered for 8 hours. She volunteered for 12 hours in the second week, and another 12 hours in the third week. The fourth week, she volunteered for 9 hours. The fifth week, she volunteered for 11 hours. For how many hours did she volunteer per week, on average?

- ○ 10 hours (1)
- ○ 10.4 hours (24)
- ○ 10.8 hours (25)
- ○ 11.2 hours (26)
- ○ 11.6 hours (27)
- ○ 12 hours (28)

JS *

Q299 *Please restate the answer you gave previously to the following question:* A bat and a ball cost $1.10 in total. The bat costs $1.00 more than the ball. How much does the ball cost?

Enter a number with no dollar sign.

_____

JS *

Q300 *Please restate the answer you gave previously to the following question:* If it takes 5 machines 5 minutes to make 5 widgets, how long would it take 100 machines to make 100 widgets?

_____

Q301 *Please restate the answer you gave previously to the following question:* There are two jars: a red jar and a blue jar.

The red jar contains 2 red balls and 1 blue ball. The blue jar contains 2 blue balls and 1 red ball.

Suppose a jar was chosen by flipping a fair coin: 'heads' corresponds to the red jar, and 'tails' corresponds to the blue jar. You do not observe the outcome of the coin flip, so without any additional evidence, your best guess is that there is a 50% probability that the red jar was chosen.

You reach your hand into the chosen jar, not knowing which jar it is.

You have **pulled out 1 blue ball**.

What is the probability that the red jar was chosen?

If you're not sure, just provide your best guess.

- ○ 1-18% (1)
- ○ 18-34% (2)
- ○ 34-49% (3)
- ○ 49-64% (4)
- ○ 64-80% (5)
- ○ 80-99% (6)

Q302 *Please restate the answer you gave previously to the following question:* There are two jars: a green jar and a purple jar.

The green jar contains 2 green balls and 1 purple ball. The purple jar contains 2 purple balls and 1 green ball.

Suppose a jar was chosen by flipping a fair coin: ‘heads’ corresponds to the green jar, and ‘tails’ corresponds to the purple jar. You do not observe the outcome of the coin flip, so without any additional evidence, your best guess is that there is a 50% probability that the green jar was chosen.

You reach your hand into the chosen jar, not knowing which jar it is.

The **first ball is green**.

The first ball is placed back in the jar. You then take another ball at random from the same jar.

The **second ball is also green**.

What is the probability that the green jar was chosen?

If you're not sure, just provide your best guess.

- ○ 1-19% (1)
- ○ 19-35% (2)
- ○ 35-51% (3)
- ○ 51-67% (4)
- ○ 67-83% (5)
- ○ 83-99% (6)

Q305 *Please restate the answer you gave previously to the following question:* The price of a pair of sneakers was $95 for the last six months of last year. On January 1st, there was a sale

and the price decreased by 50%. 2 weeks later, the price increased by $5 and then Nina bought the sneakers at the new price. How much did Nina pay?

_____

JS *

Q306 *Please restate the answer you gave previously to the following question:* Dharik lives in a house on a straight street. For years, there have been 16 houses on his street to the right of his house and 17 houses on his street to the left of his house. Last year, 5 new houses were built on the same street even further to the left of those houses to the left of Dharik's house. If these are the only houses on this street, how many houses are on this street, including Dharik's house?

_____

Q307 *Please restate the answer you gave previously to the following question:* Please read the following passage carefully, and then answer the question at the bottom.

Mrs Smith is going shopping with her son Tom. They are looking for a present for Mr Smith's birthday. Mrs Smith wants to buy him a new camera and Tom wants to buy him a jumper. They drive to the department store on the high street. Mrs Smith uses the escalator to go to the Electrical Department on the third floor and Tom takes the stairs up to the Men's Clothing Department on the second floor. When she gets to the Electrical Department she finds that cameras are sold in the Photography Department on the first floor. She takes the elevator down and asks the sales assistant there for some help. She doesn't know much about cameras and needs some advice. He recommends an automatic camera by Olympus, but it is too expensive. She asks him if he has anything a little cheaper and he tells her about a special offer on the Pentax range. It still seems expensive so she thanks the assistant and decides to shop around first. Meanwhile, Tom is looking at the jumpers. He only has £10 to spend so he can't afford most of them. He sees his mother and they decide to go to the smaller shops round the corner. Where did Mrs Smith find cameras being sold?

- ○ Basement (9)
- ○ First floor (4)
- ○ Second floor (5)
- ○ Third floor (6)
- ○ Fourth floor (7)
- ○ None of the above (8)

Q308 *Please restate the answer you gave previously to the following question:* Please read the following passage carefully, and then answer the question at the bottom.

It's Saturday morning and something is happening next door. **Joan**: Steve, what's all that noise outside? **Steve**: Just a minute, I'll have a look. ..... Oh! It looks as if the new next door neighbors are moving in. **Joan**: Oh, it's a bit early, isn't it? Ah well I guess we'd better get up. **Steve**: It's amazing how quickly the houses are selling around here, the Browns only put it on the market a month ago. **Joan**: Where did they move to? **Steve**: I remember hearing they were buying a detached house in Surbiton. **Joan**: Sounds nice. I hope the new neighbors are nice. **Steve**: Well, I was speaking with Mr Brown last week. He told me they were a young couple with two daughters. They liked the house because it was near a good school. **Joan**: Two daughters! That will please John. **Steve**: Ha! Maybe we'd better pop next door and say

hello. **Joan**: Yes, and maybe we'd better start thinking of selling too. I'd like a detached house in Surbiton as well! Who is buying a detached house in Surbiton?

- ○ The new neighbors (1)
- ○ Joan (11)
- ○ Steve (12)
- ○ The Browns (13)
- ○ John (14)
- ○ The text doesn't say (15)
